**D. Additional Comments (use this section to explain additional information about this project e.g. co-mingling projects, hazmat debris disposal, recycling material unavailable, reuse of material for another project, etc.):**

**E. Material Management (check all that apply):**

**IMPORTANT:** Per CALGreen Code, 65% of all **non-hazardous** C&D debris from your project must be recycled or salvaged for reuse. C&D recyclable material can be source-separated and/or managed as mixed debris. Mixed debris **MUST** be sent to a [Sacramento County Certified C&D Sorting Facility](#) to receive recycling diversion credit. Mixed C&D loads **MUST** be hauled by a [County Franchised Hauler](#) or self-hauled. Self-hauling **MUST** be done by the permit holder, general contractor, or a subcontractor **who is doing the work on the project**.

**Terms & Conditions.**

- Per CALGreen, Building Standards Code, a *minimum of 65%* of nonhazardous construction and demolition debris must be recycled or salvaged for reuse.
- Your approved Waste Management Plan must be kept on the jobsite and available for review for the duration of the project.
- County staff may enter the jobsite to inspect construction & demolition (C&D) debris collection areas.
- Mixed debris must be recycled at a Sacramento County Certified C&D Sorting Facility to receive recycling diversion credit.
- All mixed C&D must be hauled by a County Franchised Waste Hauler or by the person who generated the material.
- C&D debris may not be burned or dumped illegally.
- C&D debris must be contained in a manner to prevent blowing or scattering.
- C&D debris shall NOT be deposited on any roadway, public or private property, or in any river, stream, or other waterway.
- **A Waste Log and supporting weight/volume tickets must be submitted and approved prior to your final inspection. All waste hauling activity must be entered on the Waste Log, including from any subcontractors who self-hauled their own debris offsite.**
- You are required to keep all weight/volume tickets from your project for a period of one year from the date of final inspection. Weight/volume tickets must be provided upon request by County staff.
- **Failure to comply with these terms and conditions may result in a “Corrections Needed” Notice on your permit, a delay of your final inspection, shortfall mitigation measures, or a shortfall penalty of \$200 per shortfall ton.**

I certify that I have read, understand, and take responsibility for this project’s compliance with CALGreen Code, Chapter 6.20 of County Code and the Terms and Conditions of this Waste Management Plan.
